**CS 6795: Cognitive Science**

**Spring 2024**

**Individual Exercise 2**

**Assigned: Jan 29, 2024**

**Due: Feb 4, 2024**

-----

**Assignment Submission (.PDF format):**

Answer the following prompts in a maximum of 3,000 words (excluding title page and references) in [IEEE format](#). Any content beyond 3,000 words will not be considered for a grade. 3,000 words is a maximum, not a target. You are welcome to include diagrams, drawings, pictures, etc. to support your responses. These should be incorporated into the body of the paper.

**Assignment Prompt:**

**1. CRUM Account of Fear**

We briefly discussed a CRUM account of “fear” during our class on Emotions. Briefly describe this account.

**2. The emotion “Fear”**

Analyze a few situations in which you have been fearful. Describe at least two situations in which you have felt fear.

**3. The emotion “Anger”**

Now, consider the emotion of “anger”. Analyze a few situations in which you have been angry. Describe at least two situations in which you have felt anger.

**4. Common Patterns between Fear and Anger**

Identify common patterns among these situations in the language of CRUM.

**5. CRUM Account of Anger**

Give a CRUM account of the emotion of “anger”.
